Profile

Final-year **Computer Science (AI & ML)** student with hands-on experience building **machine learning systems, data-driven applications, and full-stack platforms**. Strong foundation in **model development, data analysis, and deployment**, with real-world exposure across **AdTech, SaaS, and analytics-driven products**.

Education

B.Tech, Computer Science & Engineering — Christ University, Bengaluru 2022 – 2026

– GPA: **3.45 / 4.0**

M.C. Kejriwal Vidyapeeth, Kolkata — ISC Board 2010 – 2022

– Class XII: **84%** — Class X: **89%**

Experience

Product Support Analyst Intern, Amagi Media Labs Oct 2025 – Present

- **Data-Driven Issue Diagnosis:** Analyzed campaign delivery and reporting issues using **SQL queries, platform metrics, and log data** across large-scale AdTech systems.
- **Analytical Debugging:** Identified patterns in ad delivery discrepancies and collaborated with engineering teams to drive root-cause resolution.
- **Process Optimization:** Authored SOPs and structured documentation to standardize issue triage and improve support efficiency.

Software Development Intern, Matrix Media Solutions Pvt Ltd Apr 2025 – May 2025

- **System Automation:** Designed and built a full-stack order processing platform (**React, Express, SQL**) handling 100+ weekly orders, reducing manual errors by **70%**.
- **Real-Time Data Pipelines:** Implemented shipment tracking workflows processing 200+ daily updates, enabling faster issue detection and reducing support tickets by **40%**.

Data Analyst Intern, Webrasta Technologies May 2024 – Jun 2024

- **Data Exploration & Insight Generation:** Performed EDA using **Pandas** on multi-quarter datasets, uncovering a **25%** rise in user growth versus **8%** revenue growth.
- **Analytical Visualization:** Built dashboards (**Matplotlib, Seaborn**) to identify anomalies and guide data-driven marketing strategy.
- **Data Collection Automation:** Implemented automated scripts to fetch and aggregate client data metrics, ensuring real-time data availability for dashboard updates.

Projects

- Dynamic Budgeting & Spending Optimizer

GitHub

AI-driven personal finance platform featuring predictive budgeting, NLP-based expense categorization, and goal tracking (**Next.js**, **Express**, **MongoDB**, **Docker**).
- Real-Time Distraction Checker

GitHub

Facial landmark-based focus monitoring using **MediaPipe FaceMesh**, achieving **92% accuracy** at 30+ FPS with <100ms latency.
- Facial Expression Detection System

GitHub

CNN-based emotion recognition (**84% accuracy**) on FER2013, deployed using **FastAPI + React**, improving engagement by **40%**.

Skills

Languages	Java, Python, C, JavaScript
Web	HTML, CSS, React.js, Node.js, Express.js
Databases & Cloud	PostgreSQL, MongoDB, AWS, Docker
ML / Data	Pandas, NumPy, Scikit-learn, TensorFlow, OpenCV
Tools	Git, Jupyter Notebook, VS Code, Linux Shell

Job Simulations

- Tata Group — Data Analytics (Tata iQ)

Aug 2025

- **Exploratory Data Analysis:** Conducted EDA using **GenAI-assisted analytics tools** to assess data quality and identify delinquency risk indicators.
 - **Predictive Modeling Design:** Designed a **no-code predictive modeling framework** and proposed an AI-driven collections strategy aligned with ethical AI principles.
- Accenture North America — Data Analytics & Visualization

Mar 2024

- **Data Analysis:** Analyzed **7 datasets** to uncover content performance trends and actionable business insights.
 - **Data Communication:** Delivered findings through executive-ready dashboards and presentations for stakeholders.

Certifications

Data Analysis with Python (IBM) | AWS Cloud Essentials (AWS) | OCI AI Foundations (Oracle) | Digital Image Processing (Great Learning) | Infrastructure Economics (NPTEL – IIT Madras) | CCNAv7: Introduction to Networks (Cisco) | Networking Basics (Cisco) | Introduction to Cybersecurity (Cisco)

Activities & Leadership

- **Leadership:** Event Head at **Magnovite, Christ University** — Led Tech Trivia (2023) and Triwizard Cup (2024); managed 20+ volunteers and hosted inter-university events.
- **Hackathons & Competitions:** **Smart India Hackathon (2024)** — Worked on Deepfake Detection for media authentication; **Techradiance (IIT Bombay, 2023)** — Semi-Finalist.
- **Professional Memberships:** Member — IEEE & ACM.
